Special Notes:

- 1.00 Belting should be free from longitudinal and transverse buckling, wavy cord or any other unevenness that cause localized points of flexing when belt is in service. Width tolerance shall not exceed 1%. All plies shall be mildew inhibited. Belting with repaired carcass, blow-ups shall not be acceptable. The belt construction will be of nylon/nylon carcass, with rubber covers anti-abrasive type (M-24 Grade). Unless other wise specified, belt splices shall be field vulcanized and the belt shall include sufficient length for the splice.
- 2.00 The Belting shall be marked at an interval of 5-10 meter span on the carrying surfaces with manufacturers name and identification code including year of manufacturing. In addition, the belts shall carry ISI certification marks.
- 3.00 The Belting shall be tested in accordance with the provisions of the relevant clauses and appendices of IS: 1891 in a Govt. or Govt. approved Test house and test certificate showing construction features, cover and ply thickness, grades etc., shall be invariably attached along with the supply.
- 4.00 The Belting shall be suitably guaranteed against any defect in material of construction and poor workmanship and guarantee certificate shall accompany the supply. The vendor shall also furnish necessary test certificates, examination reports and other relevant data for inspector's review.
- 5.00 If the Belting is not of required specification and fail to perform specified duties or otherwise not found satisfactory by the owner, the owner shall be entitled to reject the materials and ask for free replacement within reasonable time, failing which the owner has all powers to obtain his requirement else where at contractor's risk and cost.
- 6.00 In case of rejection, the owner shall have the right to recover the amount if any paid from any of his invoices pending with the owner or by any other alternative method. Nothing in these clauses shall be deemed to deprive the owner of his right or in any way relieve the contractor of his obligation under the contract.
- 7.00 No subletting of the execution of the manufacture and supply of belts shall be allowed.
- 8.00 Tenderer shall submit firm quotations for their offer on the basis of unit length of belting for all the items separately.
- 9.00 Materials shall be properly and securely packed in weather proof casings to avoid any sort of damage during transit and storage.
